STAT

NOTE FOR: DDCI

Hank -

STAT

[redacted] chaired a meeting of ADD's and representatives from IG, OGC, Comptroller and NI at 1400 hours. We had the attached IC Staff comment in hand.

It was agreed that OLC would prepare a CIA memorandum based on comments from the participants. They are working toward a 1700 hour deadline.

We all feel that the Director should not be driven to take a premature position on the details of legislation with such profound implications for the Community, the Agency, and his own position. However, the incomplete bill provided us does raise serious questions about production, covert action, counterintelligence, Congressional control, command of resources, authorities given to the Attorney General, the responsibility of Secretary of Defense, etc., in addition to its impact on the DCI's responsibilities. OLC's memo will briefly address these general points.
